

- **Artemis House and the DV&SH programs of Shelter House** - Join us as we give thanks to our Lord for providing us with the means to be helpful to our neighbors in need. Just one example is how throughout 2020, Living Savior worked with Artemis House and the DV&SH programs of Shelter House in support of their programs that serve our community's most vulnerable populations, even in the midst of the COVID pandemic. Our Back-to-School Supply program took on a very different look, instead of backpacks, we collected tablets, thumb-drives, printers, and long with traditional school supplies to accommodate the shelter children in virtual school rooms. Our Thanksgiving drive "upped" its game to provide food for the special day to more folks including those with a preference for Hispanic, west African, and/or Asian cuisines. The Angel Tree project focused on the residents/guest of Artemis House, DV&SH (NOVACO). These programs and their homeless shelters in 2020 served more than 800 families (more than 2,00 individuals, half of whom are children). In addition to these programs, Living Savior provided support to Shelter House in its new Quarantine, Protection and Isolation Decompression Site (QPID). This is a 200-bed facility Shelter House staffs and works with Fairfax County to provide for the special needs created by the COVID-19 health emergency for those homeless who show signs of the disease or who are at high risk.

We are glad that Living Savior along with our brothers and sisters in Christ at Bridgeway and Ambiente congregations have the opportunity to be the hands and feet of our Lord to our neighbors. In Christian love, we help Artemis House maintain the county's only 24-hour emergency shelter at 2 locations that serve victims of domestic violence, sexual violence and human trafficking. As a founding congregation, of NOVACO, we are grateful that the program has expanded into the Domestic Violence and Supportive Housing program (DVaSH). Under the DVaSH umbrella, we are able to support: (a) the rapid re-housing program that allows domestic violence victims to leave the emergency shelters and with supportive case management, find permanent housing and move safely toward self-sufficiency; (b) domestic violence homelessness prevention and "Bridging Affordability"; and (c) continue the NOVACO tradition of 5 family residential

units providing up to 12 months of transitional housing for domestic violence victims and their children.

For more details of the work of Shelter House and its various programs please see their Annual Report at:
